Dear Friends:

Just finished a note to our friends in which I asked for that tape. At the library I was able to get an address which may be more accurate than a previous one.

Bob has your latest book with him and is jotting down some notes which we will go over with you. He is on a two week trip and will be home Friday.

Sorry that we have not been able to get together sooner but we too have been very busy.

See you soon,

Trudy
